# Frequently asked questions

## GENERAL

What age and standard do my children have to be for Camp Mallorca? We cater for swimmers from ages 12 – 18 years old who are used to training regularly with a swim team, (please email us if you have any questions). The holiday will cater for all levels of swimmer from club swimmer to international standard. What other activities will my children do? We have kayaking, football, table tennis, a quiz, a nutrition talk, cooking lesson and team meal, and the world famous BEST Centre biathlon as well as things like the 100s challenge set, the last day relays and the almost world famous Med Ball throw! There will also be additional monitor-led activities and an optional excursion available. Will my child be supervised at all times? Yes. Swimmers will be in a group with a monitor who is accountable for them at all times. Can parents come? Yes, parents are welcome to stay in the town or in another part of the island. They will not be able to stay in the same hotel. Please email us if you would like to know hotel offers and ideas for your stay in the beautiful island of Mallorca. How much spending money should I send with my swimmer? As all meals and water for the meals are included in the price, swimmers only need money for additional drinks (water can be purchased for training at the pool for 1 euro for a 1.5l bottle), snacks and presents. Will my kids have fun? We guarantee it! Are the swimmers allowed to go out or to the beach/supermarket by themselves? Yes, but at the discretion of the monitors. If swimmers go out by themselves they need to ensure they have their mobile with them. What day should I arrive and depart? There is no swimming on the arrival (first) day nor the departure (last) day. If you are staying for just one holiday these are the best days to arrive and leave. We typically have an arrival meeting on the evening of the arrival day. For example 9 – 19 July holiday, the swim sessions run 10 – 18 July so you can arrive anytime on the 9 and 19 July.

Is it possible to stay extra nights or two or more holidays?

Yes, it is possible to stay extra nights. It is also possible to stay more than one holiday and each subsequent holiday will receive a discount.

Is there swimming on the arrival and departure days? There are no sessions planned for those days, however if there is space in the pool, swimmers on the holiday are welcome to use the pool but without a coach.

Is it possible to join a holiday after the start date or cross between holidays? Although not ideal, it is possible.

## TRAINING

What type of training will my children be doing? Within the sessions we have a focus on technique and drills that young swimmers are sometimes missing from their club environments. There will be plenty of time to focus also on individual needs as well as challenging sets. Who will be coaching my children? All our coaches are former international or Olympic swimmers and qualified coaches. We also have special guest weeks with Olympic medallists and Olympic coaches. Do they have to swim every session? The swim sessions are not obligatory, however we do find that most swimmers come to all sessions because they so much fun! How are the groups of swimmers organised? We primarily organise groups by age then after the first 1 or 2 sessions we organise the groups by standard and needs. How many swimmers will there be in each lane? This really depends on the numbers of swimmers. Typically, there are around 6 swimmers in each 50m lane. What is the swimmer to coach/monitor ratio? This also depends on the number of swimmers, but the ratio is typically 10 swimmers or less to 1 coach/monitor. Can my child get a private 1-2-1 session? Depending on time constraints, it is possible for swimmers to have 1-2-1 sessions with our coaches at an additional cost. These can be organised on-site.

# Frequently asked questions

What language are the sessions coached in? The sessions are coached in English. Some of our coaches are able to speak more than one language if any swimmer is struggling to understand. Lots of swimmers also translate and help each other if someone does not understand something. Parents are able to translate also.

- Squat racks, kettlebells & medicine balls
- Stretching and mobility sessions

Our gym and outdoor spaces are designed to perfectly complement water training — helping swimmers feel faster, fitter, and stronger.
